jasonbooras.com - Brooklyn, NY  
jasonbooras@gmail.com - 508-397-7300  
Github.com/jsnbrs - LinkedIn.com/in/jasonbooras

## SKILLS

- JavaScript
- Ruby on Rails
- jQuery
- Protractor
- HTML5 / CSS3
- PostgreSQL
- Git
- RSpec
- Sinatra
- AJAX
- Heroku
- InDesign

## EDUCATION

### Fullstack Academy

JavaScript JumpStart  
Course

New York, NY // 2015

### NYU School of Professional Studies

Introduction to C/C++

New York, NY // 2014

### Roger Williams University

Bachelor of Arts  
in Communications

Bristol, RI // 2006

## WEB DEVELOPMENT EXPERIENCE

### Web Intern // June 2016 - August 2016

IVY // New York, NY

- Built a test suite for the IVY mobile site using Protractor, an end to end testing framework for AngularJS applications. Protractor utilizes Jasmine for its syntax and WebDriver to automate the browser simulating the actions of a real user
- For faster tests and better control, the API calls to the backend have been intercepted and replaced with mock JSON data

### Web Development Immersive // November 2015 - March 2016

General Assembly // New York, NY

12 week intensive course focused on learning programming fundamentals and building full-stack web apps. Learned to solve problems while applying best practices in building the following projects:

#### Memory Matching Game

- Front-End project implementing JavaScript for game logic, tracking card actions, triggering matches and keeping game score
- jQuery used to manipulate HTML and CSS, giving site ability to make cards disappear when matched or revert to original state if no match was found

#### Message Board CRUD App

- Server side functionality built on Sinatra with Ruby and SQL to access database
- Secure sign up, login and encrypted password functionality by utilizing a Ruby gem
- Skeleton boilerplate for responsive CSS, deployed site to Heroku hosting platform

#### Baseball Statistics Comparison App

- Ruby on Rails site incorporated AJAX calls to PostgreSQL database to dynamically update page content when comparing player statistics
- Employed JavaScript charting library to highlight data visualization with dynamic response, additional styling elements from Bootstrap

## PREVIOUS EXPERIENCE

### Property Assistant // May 2014 - February 2015

Milford Management; via The Execu/Search Group // New York, NY

- Generated paperwork for incoming and vacating tenants while coordinating moves
- Collected and processed over one million dollars in monthly rent checks for multiple residential buildings

### Property and Leasing Assistant // February 2012 - June 2013

The Habitat Company; via Chicago Hire Company // Chicago, IL

- Provided information and building tours to prospective tenants in high rise apartments
- Maintained leasing appointment calendar and applicant tracking database
- Submitted background checks through LexisNexis; prepared move in paperwork for accepted tenants

### Bartender // April 2009 - October 2015

Bar Great Harry & Mission Dolores // Brooklyn, NY
